Aleksandr Popov

Staff Engineer | Technical Project Manager @ Samsung R&D Institute Ukraine

budivoy(at)pm(dot)me | budivoy.github.io | budivoy | aleksandr-popov-9523aa83 | Aleksandr Popov

Summary

Staff Engineer and Technical Project Manager with a strong background in research and development, specializing in cybersecurity, data privacy, and machine learning. Experienced in leading multidisciplinary teams to develop and deploy biometric authentication systems, privacy-preserving technologies, and ML-driven solutions. Focused on driving technical innovation, including patentable technologies, and delivering impactful solutions that align with organizational objectives and foster growth.

Skills

Leading Projects & Mngmt.	Managing cross-functional teams
	Delivering product from prototyping, development to commercialization stage
	Risk management, resource allocation, and stakeholder collaboration
Programming Languages	Python, C/C++, Java (Android), MATLAB/Octave, SQL, LaTeX
Security & Privacy	Biometric authentication algorithms
	Biometric templates protection methods (e.g., functional encryption, fuzzy extractors)
	Strong and week/behavioral biometrics: face, fingerprint, voice, iris, gate, keystroke, etc.
	Privacy-preserving training and inference for machine learning
Machine Learning	Time series (sensor data) classification and anomaly detection
	Deep learning for image processing
	Synthetic data generation
	On-device & server-side ML
	Data-driven ML
	MLOps
Misc.	Research and patenting
	Preparation of educational materials
Languages	English (C1), Ukrainian/Russian (Native)

Work Experience

Samsung R&D Institute Ukraine https://research.samsung.com/srukr — *Kyiv, Ukraine*

Staff Engineer | Technical Project Manager — *2018.11 – Present*

- Managed cross-functional projects, ensuring timely delivery and alignment with business objectives.
- Directed the development of ML-based security and privacy technologies for mobile devices, focusing on biometric authentication and synthetic data generation.
- Collaborated with stakeholders to define requirements and ensure clear communication.
- Led teams in implementing privacy-preserving technologies and contributing to patentable innovations in data privacy and ML security.
- Improved processes, focusing on risk management and resource allocation.

Samsung Research — *Seoul, South Korea*

Staff Engineer (Global mobility) — *2018.11 – 2020.06*

- Contributed to research and development of mobile authentication solutions for global markets.
- Collaborated with international teams to prototype and commercialize security technologies, including biometric authentication systems.
- Focused on enhancing privacy-preserving technologies and contributing to patentable innovations in security.

Samsung R&D Institute Ukraine https://research.samsung.com/srukr — *Kyiv, Ukraine*

Project Leader — *2016.07 – 2018.12*

- Led the development of cybersecurity solutions, focusing on mobile and device security.
- Managed teams through the project lifecycle, from design to deployment.
- Collaborated with internal stakeholders to ensure alignment with business and technical goals.
- Contributed to the development of security solutions with a focus on patentable technologies in cybersecurity.

Task Leader — *2014.11 – 2016.06*

- Directed task execution within larger cybersecurity and mobile development projects.
- Ensured timely completion of deliverables, maintaining adherence to project timelines.
- Collaborated with development teams to meet project milestones and quality standards.

Software Engineer *2013.06 – 2014.10*

- Developed and prototyped computer vision and multimedia middleware solutions for mobile and TV operating systems.
- Collaborated with cross-functional teams to deliver innovative software components.
- Focused on optimizing performance and integration within the larger development environment.

NASU Institute of Physics http://www.iop.kiev.ua/en/vddl-nelnjno-optiki/ *Kyiv, Ukraine*

Junior researcher (part-time) at Department of nonlinear optics *2015.05 – 2017.09*

- Conducted optical diagnostics of materials using continuous and pulsed lasers.
- Contributed to mathematical modeling efforts.

Engineer (part-time) at Department of nonlinear optics *2012.03 – 2015.04*

- Conducted optical diagnostics of materials using continuous and pulsed lasers.

Education

National Technical University of Ukraine 'Igor Sikorsky Kyiv Polytechnic Institute' *Kyiv, Ukraine*

M.Sc. Applied Physics in High Tech. Physics *2011 – 2013*

Thesis: *Effect of sintering temperature on properties of translucent aluminum oxide ceramics fabricated under high pressure*

B.Sc. Applied Physics *2007 – 2011*

Thesis: *Ab initio modeling of electronic structure and elastic properties on* $Zr_{1-x}Nb_x$ *alloy*

Patents

[1] Pedan, S., Kopysov, O., **Popov, O.**, Chalyi, O., Astrakhantsev, A., *Foldable device and method for operating same*. US Patent App. 18/737,209. Oct. 2024.

[2] **Popov, O.**, Karpenko, D., Gryshchenko, S., Petrychenko, V., Romanko, Y., *Data processing method and device*. WO Patent App. PCT/KR2023/013,150. May 2024.

[3] Progonov, D., **Popov, O.**, Astrakhantsev, A., Motchanyi, A., Li, I., Sokol, O., Sylantiev, V., Romanii, K., *Device and method for acquiring biosignal*. WO Patent App. PCT/KR2023/016,254. May 2024.

[4] Petrychenko, V., Astrakhantsev, A., Oleg, K., Progonov, D., **Popov, O.**, Gryshchenko, S., *Electronic device and method of controlling same*. WO Patent App. PCT/KR2023/001,762. Aug. 2023.

[5] Popov, A., **Popov, O.**, Pedan, S., Astrakhantsev, A., Shapoval, I., Konoval, O., Tverdokhlib, S., *Electronic device and method of operating the same*. US Patent App. 18/163,589. Aug. 2023.

[6] Huh, J., **Popov, O.**, Kwag, S., Kim, I., *Electronic device, and method for performing user authentication by using input on keyboard in electronic device*. WO Patent App. PCT/KR2021/006,152. Nov. 2021.

[7] **Popov, O.**, Biliavskyi, M., **Popov, A.**, Brynza, V., Oliynyk, A., *Electronic device for performing user authentication and operation method therefor*. US Patent App. 17/378,385. Nov. 2021.

[8] Popov, A., **Popov, O.**, Kulakov, A., Astrakhantsev, A., Shchur, O., Tatarinova, Y., *Method for securing image and electronic device performing same*. US Patent App. 17/378,032. Nov. 2021.
